

Reigns Infotech developed an Educational Management System

In Brief:

Industry

- Education

Situation

- To design and manage an interactive website of the school and evaluate a systems analysis of the various processes of School

Solution

- Developed an Educational Management System

Achievements

- Reduction in paperwork, improved transparency, online form filling, entrance test, etc. and availability of timely & accurate information

“The school teaches around 250 international students annually.”

International Sahaja Public School in Dharamsala, India is a school operated by the Sahaja Yoga movement which was founded by Shri Mataji in 1970.

The school itself was founded in 1990, its stated mission to "promote peace and wisdom in the education of children". The school is located in the Himalayas, above Dharamsala in the Kangra district, near McLeod Ganj, at a height of more than 1700m.

Situation:

International Sahaja Public School (ISPS) at Dharamsala in Himachal Pradesh is a school run by a spiritual organization. The organization has a worldwide presence imparting education to over 250 students from over 26 countries. The Management of ISPS awarded Reigns Infotech the contract to automate processes at their residential School at dharamsala.

- To design an interactive website of the school.
- To manage the website.
- To evaluate a systems analysis of the various processes of School Management to create the System Requirement Study

Solution:

Reigns Infotech's solution was to develop an Educational Management System which uses technology as the lever to improve performance of ISPS as a whole so that all elements can concentrate on the main task of elevating students achievement levels.

Achievements:

- Reduction in paperwork with minimal flow of documents
- Improved transparency with ready availability of records
- Online form filling, entrance test, etc. reducing administration cost & time
- Availability of timely & accurate information for all stake holders.
