

Aqua Logistics provides Integrated Order Management solution

In Brief:

Industry

- Engineering

Situation

- Material to be sourced from multiple countries

Solution

- Real time, centralized view of all aspects
- Collaborating Multiple suppliers orders

Achievements

- Single window visibility, communication and control

“Shapoorji Pallonji & Co. Ltd has a reputation for excellence which is based on its using the latest construction techniques and equipment, a strong base of resources in terms of capital and personnel and an indomitable spirit to deliver one's best.”

Shapoorji Pallonji & Co. Ltd started as Littlewood Pallonji & Co and was awarded its first construction contract way back in 1865. Since then, the company has grown in strength, earning a reputation as leader in the construction of large and complex projects in India.

Shapoorji Pallonji and Co. Ltd. has extended their operations to foreign shores covering a wide spectrum of civil and structural engineering works.

Situation:

Shapoorji Pallonji (SP) was awarded a US\$ 25 Million contract to construct the 2007 Cricket World Cup in Providence, East Bank, Demerara, Guyana. SP awarded the project to a Lead Logistics Provider. The requirements of the project were:

- Material to be sourced from multiple countries
- Shipments included heavy Construction Machinery such as Excavators, Loaders, Cranes, Dumpers, along with other supply materials such as tiles, bathroom furnishings, electrical fittings, etc.
- Scope of Work also included Reverse Logistics of equipment to the origin

“Stadium to hold a capacity of 15 to 20 thousand people primarily for Cricket but can also be converted into a multi use facility.”

Solution:

- Real time, centralized view of all aspects of the freight process in the global arena
- Collaborating the orders of Multiple suppliers for delivery, leading to cost optimization

Achievements:

- End-to-End visibility to Shapoorji Pallonji over sourcing of goods from various geographical locations
- Single window communication and control over entire Supply Chain
- Improved productivity & efficiency of operations
